

## Comparison of Printing:

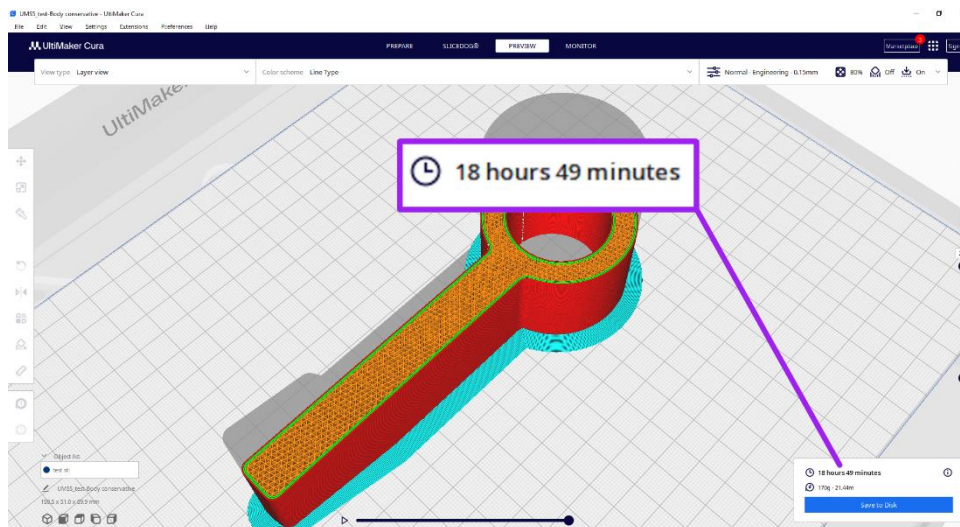

**Optimization saved:**

**8 hours 24 minutes (-44,6 % printing time)**

Optimization via Slicedog additionally guaranteed the strength of the part, so it could **withstand the required load of force 300 N.**

Optimization via Slicedog additionally guaranteed the strength of the part, enabling reaching **safety factor of 3.**

**Original part – Bambu Studio 0.2 profile strength, without guaranteed strength**

Parameter	Original	Optimized	Savings
Printing time	18 h 49 min	10 h 25 min	-8h 24 min (-44,6 %)
Material	170 g	91 g	-79 g (-46,5 %)
